# WHO IS POL BOX?

01 / Artist

IN THE BOOTH

## A DARK, ELEGANT PULSE — BUILT TO **MOVE A ROOM.**

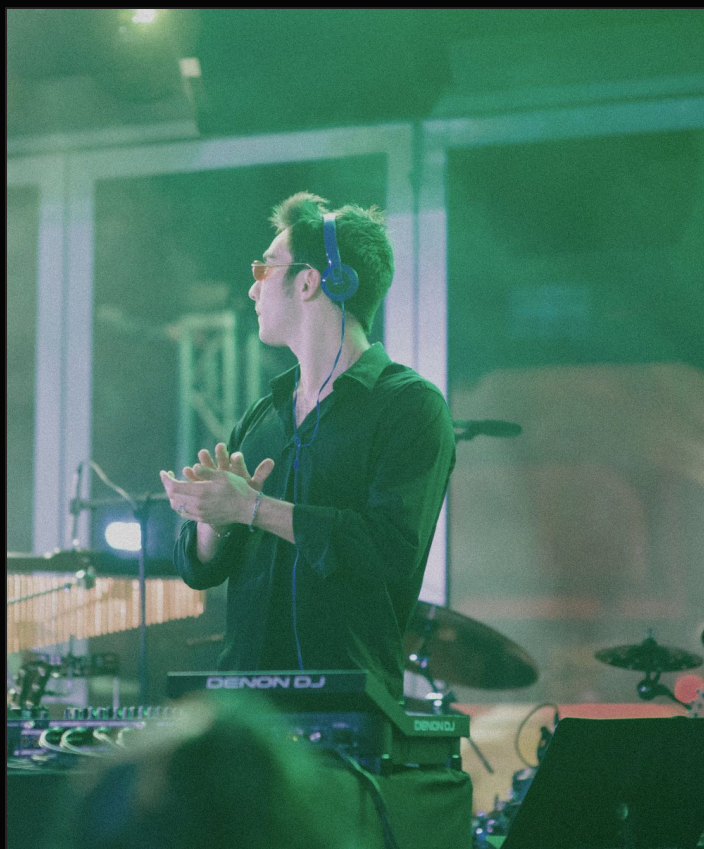

Pol Box is more than a DJ. It's an experience that seduces and captivates everyone who enters its orbit — a primal energy transmitted through music he has spent over a decade perfecting, as the vehicle for an identity and a pulse entirely his own.

A dark and elegant sensation, loaded with that edge of seduction we all carry within and only release in a room with no light — where the red pushes the body to move to the groove pulsing through the speakers, merging with the melody and elevating you to your wildest, most magnetic self.

Based in **Madrid**, playing across Europe, the U.S. and Asia — from intimate rooms to main stages.

# THE SOUND

02 / Style

House is the backbone — carrying the full force and intention of his sound. From there he commands darker, more organic registers, without ever losing the groove.

## HOUSE

The backbone. Groove-first, clean and relentless.

## TECH HOUSE

Darker, driving, built for peak-time.

## TRIBAL

Organic percussion, primal energy.

## SOULFUL HOUSE

Warmth and melody — the elegant edge.

## BEYOND THE BOOTH

Pol Box is also a producer. He works in **Studio One** and with internationally recognised sound samplers, shaping his own tracks and edits — the same instinct for tension and control that defines his sets, applied in the studio.
